TURNER DEMOTOUR STORY :::

On the weekend of January 30-31, Turner bikes is teaming up with the guys at Sunshine Bicycle Center to bring you the Turner Demo Tour to Fairfax California. Come down to demo a Flux, 5.Spot, or Sultan on some of Marin's scenic legal singletrack. See for yourself why Turner Bikes dw-link is nothing but amazing when it comes to both pedaling efficiency and suspension suppleness .

While here you can experience first hand how forgiving these bikes handle on any terrain. And then check out the American hand made quality, our unique dw-link suspension design, our exclusive journal bearing system with threaded grease ports, the unsurpassed lateral stiffness, the unrivaled service life and much more. . . You really need to ride a Turner to appreciate the new standard Turner Bikes is setting for 'the ride'.

NEXT TURNER DEMOTOUR STOP :::
